

Occupational Health and Safety Policy.

Premier Building & Construction is committed to ensuring that our people are safe from injuries and risks to health (physical and psychosocial) while at work and accepts that workers health and safety is primarily the responsibility of management.

We have set objectives and targets around the minimisation of lost time injuries and the continual improvement of our OH&S system.

Premier Building & Construction management agrees to provide all resources, training, and equipment necessary to ensure the successful implementation and continuation of the OH&S system.

Premier Building & Construction, through its senior management, will comply with all legislative and other requirements placed upon it and will require all workers to comply.

Our system, including this policy, and any relevant legislation will be reviewed regularly, as will comments or feedback from employees and stakeholders, which are always welcomed.

Furthermore, Premier Building & Construction will, so far as is reasonably practicable, eliminate injury and illness in the workplace. This will be achieved by considering health and safety in construction planning and work activities, involving all workers in the decision-making processes through regular communication, consultation and training, taking action to eliminate or control potential hazards and risks, providing effective injury management and rehabilitation for all injured employees.

A handwritten signature in black ink, appearing to read 'Anthony Baker', with a large, stylized initial 'A'.
